

## Quirky songs in a Narrative Style!

### Songs about Life

**Songs to make you laugh.**

**Songs to make you cry.**

**Songs that will make you tap your feet.**

To date I have released 2 CD's. My debut CD in 2012 – Memories and Other Tales was followed by Doing Nothing (2014).

My 3rd CD, Facebook Friends is now available.

I am a lyricist with an art for telling stories from a life's journey. My songs are about community, family, history and experiences all in a narrative style.

#### **What people say:-**

***"You get the stories exactly right"*** Brian Amos 98.1, Eastern FM.

***"LOVE the album. My favourite tracks are Monster Meeting and Lester and Clyde. They are all awesome but those 2 are my favs. I really like the production and sonic quality of the album too. Not too overdone and well thought out."*** Andrew Wigglesworth. (Weeping Willows).

***"These songs are important in the folk genre as they are about a life's journey"*** Michael Crichton. 3WBR FM

***"Mate, you are awesome, great set"*** - Usually some audience member at a show.

I believe in the entertainment quality of music and many of my songs have a healthy dose of humour to get you laughing, but also may have a serious message. They are a comment on life, from a personal perspective, to which many can relate. My more serious songs about loss have touched people in a way that is highly personal.

At my shows you can expect to be entertained with stories, laugh at the humour of every day events, feel moved by the truthfulness and honesty and to be a part of the show when you join in with songs.

I will have you singing along and tapping your feet, guaranteed.
