I am a balladeer who's acoustic works range from upbeat folk/country, to soulful and comic balladry, with elements of blues, and rock thrown in. It is my foot tapping rhythmic playing, storytelling and passion for performing that keeps me in the minds of all who see me play.

They are songs that will have you singing along.

Do you like to laugh?

My songs are stories about and from life to which everyone can relate, quirky and mainly not true!

They are about everyday life events like having the Supermarket Blues, Working in the Yard, taking Viagra, dealing with the internet or not having to shave today? They will have you laughing.

Also

I have serious songs that will tug at your heart strings, make you cry and bring back memories from events we all share in our lives.

I also do covers from the 50's to the 70's.

I have a comedy show of mostly original songs (some covers). Duration 2 hours.

Edward Nass.
